

Milan Timalseña

Itahari, Sunsari • 9804075696 • milantimalseña87@gmail.com

Ambitious and disciplined Computing student pursuing a BSc (Hons) in Computing, with a growing foundation in programming, web development, and computer technology. Actively developing practical skills through projects, training, and hands-on experience in the IT field. Demonstrates strong communication, professionalism, and a proactive approach to learning. Interested in building a career in technology and computer education, with a focus on clear instruction, problem-solving, and continuous self-improvement.

EXPERIENCE

Hackathon Participant

Feb, 2026

Clash A Thon 2026: Competed in a Hackathon, collaborating under time pressure to design and prototype a software solution.

Koshi Yantra 2.0 – Robo Race Competition

Jan, 2024

- Participated in a provincial-level robotics competition focused on innovation, speed, and control.
- Designed and assembled a competitive robot for the Robo Race event.
- Collaborated with a team to troubleshoot hardware and software challenges during the event.
- Gained practical knowledge of sensors, motors, and circuit interfacing

EDUCATION

Bsc(Hons) Computing

Itahari International college

Nov, 2024 - Present

Higher Secondary (+2)

Sushma Godawari College

Itahari
Jul, 2022 - May, 2024

Horizon Academy

Itahari
Jan, 2010 - Mar, 2022

PROJECTS

Personal Web Development Project

- Designed and developed a functional e-commerce-style website for a shoe store.
- Implemented front-end design using HTML, CSS, and basic JavaScript.
- Focused on user-friendly layout, product listings, navigation, and responsiveness.
- Enhanced practical understanding of web design, layout structuring, and UI/UX principles.

Portfolio

milantimalseña.vercel.app

Velvra — E-Commerce Footwear Website

- Built a fully responsive e-commerce platform featuring product listings, shopping cart management, user authentication, product detail pages, and a simulated checkout flow.
- Implemented mobile-first responsive design optimized for desktop, tablet, and mobile, ensuring crossdevice compatibility.
- Structured clean, modular JavaScript (ES6) for cart state management and dynamic product rendering without relying on external frameworks.

https://github.com/milantimalseña/Velvra-A_e-commerce-Footwear-Website

ArtTrack — Art Gallery Management System

- Developed a Java-based desktop application to streamline visitor management in an art gallery, including ticket purchasing, visitor detail tracking, and artwork transaction processing.
- Designed and implemented a user-friendly GUI, reducing manual administration effort and improving frontend operational efficiency.
- Applied object-oriented programming principles (encapsulation, inheritance, polymorphism) to produce a maintainable, extensible codebase.

Shoe Inventory Management System

A menu-driven Python application to manage a shoe store's inventory.

This system allows store owners to track stock, process customer sales, restock shoes, and purchase new items.

All inventory data is stored in a text file (shoes.txt) so data is saved even after the program closes.

Birat Tv

<https://www.birattv.com.np/>

Eastern travel mart

- Built a registration frontend for Eastern Travel Mart 2026

<https://easterntravelmart.com/>

ACHIEVEMENTS

TRAINING/CERTIFICATIONS

Diploma In Computer Application

2022

Aakash Institute

SKILLS

Graphic Designing, Basic Programming (Java, Python, Dart), Troubleshooting and Hardware Basics, Robotics & Embedded Systems (Basic Level), Photoshop, React, Adobe Illustrator

LANGUAGE

English, Nepali
