

MILAN TIMALSENA

Full-Stack Developer • Graphics Designer • IT Intern

📍 Itahari, Nepal | ✉ milantimalsena87@gmail.com | [Portfolio](#) | [GitHub](#) | [LinkedIn](#)

PROFESSIONAL SUMMARY

Motivated and versatile Full-Stack Developer and Graphics Designer currently pursuing a BSc (Hons) in Computing at London Metropolitan University. Experienced in delivering production-ready web applications, responsive UI design, and brand-identity assets for real clients. Demonstrated ability to work in a professional IT environment through an internship at Kafals — an AI-powered digital agency in Nepal — and freelance delivery of a full media website for BiratTV. Proficient in Java, Python, JavaScript, React, and design tools such as Figma, Photoshop, and Illustrator. Passionate about blending technical engineering with creative design to build impactful digital experiences.

TECHNICAL SKILLS

Languages	JavaScript (ES6+), Python, Java, HTML5, CSS3
Frontend	React.js, Tailwind CSS, Responsive Web Design, UI/UX
Backend & DB	Node.js, REST APIs, MySQL (fundamentals)
Design Tools	Figma, Adobe Photoshop, Adobe Illustrator, Canva
Dev Tools	Git, GitHub, VS Code, Live Server, npm
Platforms	Vercel, GitHub Pages
Concepts	OOP, MVC, Agile Methodology, ATS-Optimized Design, E-Commerce

PROFESSIONAL EXPERIENCE

IT Intern 2025 – Present

Kafals IT Company (Kafals Tech Pvt. Ltd.) • Itahari, Nepal

AI-powered digital agency delivering web development, graphic design, SaaS products, and digital marketing solutions to 1,500+ clients across Nepal.

- Contributed to frontend development tasks using HTML, CSS, and JavaScript within a professional agile workflow, accelerating feature delivery.
- Assisted in designing graphic and motion assets for client campaigns, maintaining consistent brand identity across digital platforms.
- Collaborated with senior developers on web and app development projects, gaining hands-on exposure to real-world software engineering practices.
- Supported UI/UX design processes using Figma, translating wireframes into pixel-perfect, responsive layouts.
- Participated in client-facing project discovery and requirements sessions, strengthening communication and technical documentation skills.

Freelance Web Developer & Graphics Designer 2023 – Present

Self-Employed (3+ Clients) • Remote / Nepal

- Designed and developed the full production website for BiratTV (birattv.com.np), Nepal's premier television channel, delivering a responsive multi-page site with news, lifestyle, and media sections.
- Executed end-to-end project delivery — from requirements gathering and wireframing to deployment — meeting client deadlines and quality expectations.
- Created brand identity assets, social media graphics, and promotional materials for 3+ businesses, directly supporting marketing and engagement goals.

- Maintained client relationships through iterative feedback cycles, ensuring high satisfaction and repeat collaboration.

PROJECTS

Velvra — E-Commerce Footwear Website | *HTML5 • CSS3 • JavaScript (ES6)* —

https://github.com/milantimalsena/Velvra-A_e-commerce-Footwear-Website

- Built a fully responsive e-commerce platform featuring product listings, shopping cart management, user authentication, product detail pages, and a simulated checkout flow.
- Implemented mobile-first responsive design optimized for desktop, tablet, and mobile, ensuring cross-device compatibility.
- Structured clean, modular JavaScript (ES6) for cart state management and dynamic product rendering without relying on external frameworks.

ArtTrack — Art Gallery Management System | *Java • OOP • GUI (Swing/AWT)*

- Developed a Java-based desktop application to streamline visitor management in an art gallery, including ticket purchasing, visitor detail tracking, and artwork transaction processing.
- Designed and implemented a user-friendly GUI, reducing manual administration effort and improving front-desk operational efficiency.
- Applied object-oriented programming principles (encapsulation, inheritance, polymorphism) to produce a maintainable, extensible codebase.

Shoe Inventory Management System | *Python • File I/O • CLI* — <https://github.com/milantimalsena/shoe-inventory-management-system>

- Engineered a menu-driven Python CLI application enabling store owners to track stock, process sales, restock inventory, and purchase new items with persistent data storage.
- Implemented structured file I/O for data persistence, eliminating manual stock-tracking and reducing the risk of inventory errors.

Student Registration System | *Java • OOP* — <https://github.com/milantimalsena/Student-registration-system>

- Created a Java-based student registration system demonstrating core OOP concepts including class design, data handling, and user input validation.

Personal Developer Portfolio | *React.js • Vercel • CSS3* — <https://milantimalsena.vercel.app>

- Designed and deployed a personal portfolio website showcasing skills, projects, and contact information, deployed on Vercel with a custom domain.

COMPETITIONS & ACHIEVEMENTS

- Hackathon Participant — Clash A Thon 2026: Competed in a national-level hackathon, collaborating under time pressure to design and prototype a software solution.
- Robotics Competition Participant — Koshi Mini Yantra 2022 (State Level): Represented at a regional robotics competition, applying STEM skills in hardware design and programming.
- GitHub Achievements — Pull Shark & Quickdraw: Earned recognition on GitHub for active collaboration through pull requests and rapid issue resolution.
- Delivered production website for BiratTV, a nationally recognized Nepali media brand, as a freelance developer.

EDUCATION

BSc (Hons) Computing

Currently Pursuing

London Metropolitan University • London, UK (Distance / Affiliated)

- Developing expertise in software engineering, algorithms, data structures, web development, databases, and computing theory.

TOOLS & TECHNOLOGIES

JavaScript (ES6+) • React.js • Tailwind CSS • HTML5 • CSS3 • Python • Java • Node.js • Git • GitHub • Vercel • Figma • Adobe Photoshop • Adobe Illustrator • Canva • VS Code • REST APIs • MySQL • Flutter (learning)
